

eircom UK - your best option for Calls and Lines

Discover better value and convenience for your voice services. eircom UK's Calls and Lines solutions give you all the advantages of the BT Openreach infrastructure, the best UK access network, with superior service, convenient web-based billing and ordering, and highly competitive tariffs.

Seize the benefits of eircom UK calls and lines

- Highly competitive call tariffs
- Save time with our easily accessible online ordering portal for moves and changes, new provides and ceases.
- Dedicated Service Desk for incident reporting and tracking
- Convenient monthly billing and secure, web-based access to your itemised call records to support your efforts to control voice spend.
- Enjoy potential cost savings across your telecoms estate with management reports and recommendations from our analysts as part of our Telecoms Expense Management service.

Switch to eircom UK and benefit from improved accessibility and control of your voice estate

The separation of the network and commercial arms of BT is great news for your business: now you can keep all the benefits of the best UK access network but switch to a provider who truly goes further to bring you better value and convenience in your calls and lines.

At eircom UK we offer highly competitive solutions and can potentially demonstrate savings against your existing supplier through lower line rentals and improved pence per minute tariffs.

Well-managed migration safeguards which ensures your business continuity

At eircom UK we use our proven migration methodology to migrate you quickly and efficiently to our calls and lines service:

- Your tailored project plan details the phased migration of calls and lines
- To move your estate to eircom UK requires no engineering visits, no network downtime and no indirect routing
- All call spend and lines, which are out of contract, will be migrated within 15 working days of agreement of migration plan by both parties

Improve your bottom line with eircom UK Telecoms Expense Management

Ask us about our Telecoms Expense Management service - an excellent means of gaining better control of your voice spend. This service includes monthly management reports and recommendations from our experienced analysts on how overspend could be removed from your estate.
